I'm currently a fifth-semester Computer Science student at Bina Nusantara University. During my studies I have part-time as a Tech Support at PT. Rajawali Cakrawala Indonesia and doing some freelance. I'm interested in learning more about software engineering, particularly web development. I'm a quick learner who works hard to achieve my objectives, also eager to apply my skills and knowledge to an inspiring organization where I can make a meaningful contribution.

Professional Experience

PT. Rajawali Cakrawala Indonesia - West Jakarta, Indonesia

Oct 2019 - Oct 2021

Part-time Tech Support

PT. Rajawali Cakrawala Indonesia (PT. RCI) was established on July 20, 2018, according to the deed of incorporation. Although relatively new, the Company believes it will be able to take part in providing and developing the smart home and smart city programs in Indonesia. Supported by years of experience in the financial industry that upholds integrity and professionalism.

- Develop the company website and add all the appropriate products and descriptions | rcindonesia.co.id
- Led meetings with customers and partners and successfully secure the deals.
- Train 3 of sales and conduct follow-up on customers to ensure their satisfaction.
- Edited photos, videos, documents for the requirements of the business.
- Overseeing the installation of hardware and software including printers, PCs, and OSs.
- Identify user issues, diagnose problems and deliver workable solutions via phone, email, or desk.

Web Developer

Jul 2021 - Present

Freelance

Starting with my friend who started a cryptocurrency project with a friend in Belgium, who eventually asked me to work as a freelance frontend developer for his cryptocurrency project. So far, I have completed six freelance projects.

- Implemented Analytics and Web3 Integration for adding wallet.
- Worked with content owners to get correct messaging & materials in the right places.
- Managed all web change requests, updates, and additions, Including developing new pages, templates, sections, graphics as needed, to support interactive and organizational content.
- Tested different browsers and devices to ensure that various computers can access the content.
- Performed the deployment process, domain integration, and ensure smooth web performance.
